Derham Groves and I invite interested persons to submit a proposal to the 2008 National Pop/Am Culture Association Annual Conference at the San Francisco Marriott, San Francisco, CA, March 19-22, 2008.

Popular Art, Architecture and Design is concerned with the aesthetics of popular material culture in the everyday world of the past, present and future. At previous conferences topics have included Good Sports, Model Women, Shopping Malls, Bodies of Work, Mass Media, Place & Identity, Household Myths & Mysteries and many, many more. It is truly a broad arena! Popular Art, Architecture and Design papers may be published in an e-zine after the conference.
