

Early Modern Architecture – Ph.D. dissertation informations

Kimberley Skelton

As part of the Early Modern Architecture initiative (<http://earlymodernarchitecture.com>), we are compiling an international list of Ph.D. dissertations from any discipline and on any aspect of the architecture (design, theory, and practice) of Europe and its colonies, 1400-1800. Once we have assembled a substantial number of dissertations, we will post the list on our site.

If you are supervising or writing a dissertation that is in progress or was completed during the 2010-2011 school year, please email us at emalisterv@gmail.com with the author's and supervisor's names, the dissertation title, and the names of your department as well as institution. We will then add your information to our list.

Alternatively, an online form is available through our website at: <http://wp.me/P1fiUy-nz>.

Thank you for contributing to this list!

Sincerely,

Kimberley Skelton and Freek Schmidt
