The Berlin-based FORUM TRANSREGIONALE STUDIEN invites scholars to apply for up to ten postdoctoral fellowships within the framework of the research program "Art Histories and Aesthetic Practices. Kunstgeschichte und ästhetische Praktiken" for the academic year 2016/2017.
"Art Histories and Aesthetic Practices" is a research and fellowship program which questions and transcends traditional disciplinary boundaries of art history in a transcultural, global horizon. By creating a space of dialogue for scholars from all continents and regions, it aims to discuss the potentials and contours of a plural history of art. It especially invites scholars from Islamic, Asian, African, Australian, European art histories and those of the Americas to join the program, but also addresses neighboring disciplines such as Archaeology and other fields dealing with the history of visual cultures. "Art Histories and Aesthetic Practices" analyses the connectivity of larger historical spaces in a transregional perspective and investigates artistic and aesthetic practices and the history of artifacts in a comparative approach, experimenting with new methodologies and forms of collaborative research. The concept of "Aesthetic Practices" introduced by this program, is an invitation to study artifacts with their biographies as well as processes of transfer and transformation in a transcultural, postcolonial and global perspective. The program has no chronological or geographical constraints. It collaborates with the museums of Berlin, the Berlin universities, as well as other international and national academic partners, and aims at an intense interaction of art historical institutions. Its scholarly environment is designed to enable and encourage both fellows and the wider community to experiment and refine transregional approaches to the history of visual cultures and aesthetic practices.
