

2016 Mid-America College Art Association Conference: Call for Session Proposals

University of Cincinnati's College of Design, Architecture, Art, and Planning (DAAP),
Oct 26–28, 2016
Deadline: Dec 16, 2015

Karla Huebner, University of Pittsburgh

2016 Mid-America College Art Association Conference

The MACAA 2016 conference will be held at the University of Cincinnati's College of Design, Architecture, Art, and Planning (DAAP), October 26-28th.

Call for Session Proposals

MACAA 2016:STUDIO SHIFT DEADLINE 12.16.2015*

Art and design are constantly evolving, and over the past twenty years there has been escalating interest in socially engaged art and design. The creative practitioner releases some control to the audience in this post-studio environment. But can the artist truly function without a private space for reflection and production? Can the designer or scholar think and write cogently on a laptop in public? This conference will address the past, present and future of creative research space for artists, designers, historians, curators and critics. Other presentation topics will also be considered.

Art and Design also have intertwined histories, including the current trends toward design-orientated fabrication, modeling and aesthetic choices in contemporary art. We seek session proposals that capture the spirit of this healthy conversation between art and design. We also seek proposals that explore the future trajectories of art and design. Abstracts, maximum of 250 words, should be attached to the proposal form.

+ EMAIL SUBMISSIONS TO: MACAA16@ucmail.uc.edu

For more information, see <http://www.macaart.org/conference.html> . Panel proposals may be for fully formed panels or for panels that, upon acceptance, will involve a separate call for papers.
