MONZA ILLUSTRATA 2017. ANNUARIO DI ARTI E CULTURE A MONZA E IN BRIANZA, Aracne editrice / YEARBOOK OF ARTS AND CULTURE IN MONZA AND BRIANZA, published by Aracne

«...e manufactura de cello pincto per oro». Distinguishing features of mural painting in Lombardy in the late Gothic period: materials, techniques, models and workshops.

THEME AND QUERIES

Monza Illustrata is looking for contributions for its 2017 issue relating to mural painting in Lombardy, investigated from the point of view of techniques, materials, the use of models (circulation of drawings, sketchbooks, figures of itinerant artists of the time), of borrowings (from the art of goldsmithing, from panel painting, from illumination, from textiles, from sculpture and from stained glass windows) and within the reality of the workshops, including contracts and associations between artists, to please particular clients (organization of the execution of the wall painting: giornate (days' work), use of cartoon transfer techniques, patrons, treatment and application of materials as gathered from restoration analyses, documentation on mural paintings, etc.) in the period from the second half of the 14th century to the second half of the 15th century.

The aim of the monograph is to offer to studies a collection of essays which can contribute to knowledge and to the debate on the subject of mural painting in Lombardy, over a time span of about a century, during which painting and decorative techniques were used that were in many ways multi-material and tangential to the goldsmith's craft and to panel painting.
