The series of lectures "Kunst und Philosophie" (art and philosophy) examines the philosophy of the 21st Century and explores the relationship between Art and Philosophy. The question posed by the guest speakers is of the simplest kind: What is philosophy? For a period of eight weeks, nine philosophical lectures will be held in the premises of Neuer Berliner Kunstverein as part of the exhibition, accompanied by workshops with students of the Berlin Weissensee School of Art, as part of an art education project.
