

## Theorizing the Geography of East-Central European Art (Poznan, 26–27 Oct 18)

ZAMEK Cultural Center, Poznań, Poland, Oct 26–27, 2018

Agata Jakubowska

East-Central European Art Forum Inaugural Conference

Theorizing the Geography of East-Central European Art

The newly established Piotr Piotrowski Center for Research on East-Central European Art at the Adam Mickiewicz University in Poznań invites you to the inaugural conference of the East-Central European Art Forum. The conference Theorizing the Geography of East-Central European Art will be held on 26 and 27 October 2018 in Poznań.

According to Piotr Piotrowski (1952-2015), the core of practicing art history and scientific research resides in meetings and vibrant discussions with scholars, art writers, artists, and curators. Piotrowski became a major figure in East-Central European art scholarship not only because of his writings, but also owing to the fact that he was building networks. We are under no illusion that we can replace him in that. Yet, as his intellectual heirs, we perceive it as both a challenge and an opportunity to continue his work of bringing people together. Therefore, we intend to initiate the East-Central European Art Forum – regular, biennial meetings of scholars working on East-Central European art of the 20th and 21st centuries.

The inaugural conference will concentrate on new theoretical conceptualizations of geographies of East-Central European art and/or critical analysis of existing theoretical holdings on the subject. It will bring together international scholars who are interested in discussing how we place Eastern European art and its histories on the maps of global art histories that are continuously being drawn anew.
