

Metaphysical Masterpieces Study Days (New York, 26–27 Apr 19)

CIMA - Center for Italian Modern Art, New York City, Apr 26–27, 2019

Chiara Trebaiocchi

CIMA hosts the Metaphysical Masterpieces Study Days on Friday and Saturday, April 26 and 27, 2019. These annual events offer an opportunity for CIMA's fellows to share their new research alongside other scholars, in the intimate, collaborative environment of the exhibition space—a rare opportunity to discuss the artists' career while surrounded by numerous examples of their work.

The Study Days aim to further investigate the major themes of CIMA's annual installation, as well as to offer new insights into the general debate on Metaphysical Art, in sessions conceived by the 2018–2019 CIMA Fellows following an open call for papers.

Day 1: Friday, April 26 (10am – 5pm; prosecco aperitivo; keynote talk by Prof. Mia Fuller at 6pm)

Day 2: Saturday, April 27 (10am – 1pm)
