Internationales Symposium «Korean Art in the West: Tracing Objects from Creation to Collection»

The Section for East Asian Art (Institute of Art History, University of Zurich, Switzerland) cordially invites everyone interested in the art history of Korea to the international symposium "Korean Art in the West: Tracing Objects from Creation to Collection". The symposium will be held in the auditorium of the RAA building, University of Zurich, Raemistrasse 59, 8001 Zurich (RAA-G-01, Aula, second floor).

The symposium aims to represent various case studies of Korean art in the West to create an overview of the state of research and methodologies in the field. It seeks to explore the trajectories of movement of Korean art in the past centuries and its reception outside of Korea. Our focus lies on the collecting practices, museum displays and cultural mediation, appropriations and uses of Korean art in the West, and on the comparative perspectives on similar processes in Korea. As the first symposium of its kind in bringing together Korean art scholars to Switzerland, it attempts to give a deeper insight into the collections of Korean art in Switzerland and other countries as well as to open a new field of public and academic interest in the study of Korea.
