### JOURNEYS - INTERNATIONAL CONFERENCE ART READINGS 2020 OLD ART MODULE

Art Readings are a specialised conference held on a yearly basis by the Institute of Art Studies, BAS. It has been held in Sofia ever since 2002. The initial idea was a platform to be provided for researchers of all forms and periods of arts to share their latest achievements, thus fostering the shaping of an interdisciplinary view of the processes ongoing in culture and as such, was attractive mostly to the researchers at the Institute of Art Studies as well as to doctoral students from various universities and institutes, while the collections of the conference proceedings proved almost unsaleable due to the multidirectional subjects of the published papers. Steps the event to evolve into an international one, have been taken since 2009.

This edition of the traditional annual conference Art Readings, Old Art module, deals with journeys as a phenomenon and their renditions in art. The main focus is on the journey as related to art from Antiquity to the late nineteenth century.
