

Archives of Dresden Arts Academy

H-ArtHist (Homann)

Dear list,

I am seeking records concerning the relationship of official arts policy to its implementation in the curriculum and exhibitions of The Dresden Academy in the 1950s-1960s. I have general statements of policy but would appreciate locating an archive that might hold specific documents (whether through surveillance, or school records) pertaining to students, faculty, administrators and curators during this period. As far as I know there is no archive comparable to that of the Berlin Academy, for example. Please reply directly to: nugentja@sas.upenn.edu

Thank you,

Jeanne Nugent
