Conference on Intermedialities

June 3-8 2002, Erasmus University Rotterdam

Call for Papers (submission deadline: October 1, 2001)

The International Association for Philosophy and Literature organises in association with the Department of Philosophy of the Erasmus University Rotterdam a conference on:

Intermedialities

Articulated in the interdisciplinary context of literature, visual arts, theatre and film, intermedialities are also linked to debates around media, literacy, multimedia, and interactivity in new media technologies. Philosophically, the 'inter' is concerned not only with inter disciplinary approaches in the arts and visual cultures, but also with multicultural commitments in politics and ethics .
