

Re: Q: Film "Spiral Jetty" von Robert Smithson (2)

Anne Swartz

I read your note without my German dictionary handy, so if I am not answering your question correctly, please excuse me. There is a short clip of Smithson's film in the Robert Hughes "American Visions" series. Also, if you look at the Smithson website

[<http://www.robertsmithson.com/>](http://www.robertsmithson.com/)

you'll find you can download the films there. I haven't been able to download anything from it successfully, but one of my colleagues apparently did.

I teach a course called "Installation and Environmental Art." I use the Phaidon Themes and Movements series book as one of the textbooks.

The students seem to love the class.

Anne Swartz, Ph.D., Professor of Art History, Savannah College of Art and Design
