

NHIST Call for Travel Grants 2004

Eriksonas L

The European Science Foundation Scientific Programme Representations of the Past: The Writing of National Histories in Nineteenth and Twentieth Century Europe (NHIST) invites applications for two types of travel grants:

(1) grants for short visits of up to 15 days, to attend workshops and cross-team conferences of the NHIST programme and/or to do research, and

(2) grants for longer research stays of up to 6 months to contribute to the NHIST programme or one of its teams (for the research topics please see the NHIST website at the address below).

Scholars at both doctoral and post-doctoral levels are eligible for the grants. The application has to demonstrate that an applicant can meaningfully contribute to the work of one of the four teams or to the Programme as a whole, by way of doing research and/or actively participating in a workshop or a conference. Accordingly, the grants may serve to fund research trips to academic institutions involved in the Programme or to attend NHIST workshops or conferences. In case of archival research beneficiaries will be monitored by a senior researcher involved in the programme.

For more details please see
