

Travel Writing on Portugal 1750 - 1850

clara paulino

Dear list serv members,

I would like to ask for some help with the research I am currently doing for my Ph.D in art history pertaining to Portugal. I am looking for travel writing between 1750-1850 as a source of information. Any writing that includes descriptions of, or references to Portugal could be important to me. I am interested in writers of any nationality but am now particularly looking into the former Eastern European countries.

I would be very grateful for any suggestions,

Clara
