Carola Giedion-Welcker conference

Henry Moore Institute, Leeds, England

Friday 9 June 2006

Carola Giedion-Welcker (1893-1979) is the author of one of the first extensive and fully illustrated books on modern sculpture, *Modern Plastic Art: Elements of Reality, Volume and Disintegration* (1937) later revised as *Contemporary Sculpture: An Evolution in Volume and Space* (1954). This symposium examines the legacy of her writing on sculpture, her radical politics and her close connections with living artists.
