

Collections of Chinese Cultural Revolution-era Material Culture

Amy Jane Barnes

Dear all,

I am currently researching material relating to the Cultural Revolution (1966-1976). Although my focus is on British museums, I would be very interested to hear of any collections of such material that H-Arthist members are aware of around the world, particularly if they have been recently exhibited.

Please do not hesitate to contact me should you have any questions.

Best wishes,

Amy
