Museums and the Web addresses the social, cultural, design, technological, economic, and organizational issues of culture, science and heritage on-line. Proposals are invited from professionals and researchers in all areas actively exploring the creation, on-line presentation and use of cultural, scientific and heritage content, and its re-use and evaluation.

The bibliography of past MW papers (all on-line since 1997) can be searched at <http://conference.archimuse.com/researchForum/>
