

## Lost works by Melchior Lorck / Lorichs

Mikael

Dear Sirs and Madams,

Ernst Jonas Bencard from the Thorvaldsen Museum i Copenhagen and myself are at present editing former keeper of the Copenhagen Printroom, Dr. Erik Fischers catalogue raisonnée of Melchior Lorck / Lorichs (1526/27-after 1583), to be published in 2009 and 2010 in English by Forlaget Vandkunsten ([www.forlagetvandkunsten.dk](http://www.forlagetvandkunsten.dk)).

Of the 274 works know to us by by the artist, some works mentioned in older sources have not been located and identified so far, and I would like to ask if any ARTHIST members could help in the regard. I am sorry if this appears to be too much to ask and fully understand if it cannot be done, but it would be a great help, since Dr. Fischers research on the subject since has been going on since 1957 and some things are still lacking or have become so during the years.
