Dear Ladies and Gentlemen,

We want to inform you about an exiting research project.

The research team of the virtual Karl Waldmann Museum studies since five years the life and work of Karl Waldmann. With the fall of the Berlin Wall around 1500 works of this, by then, unknown artist were discovered. The works range from constructivist forms to Collages and Photomontages. Thanks to the statement of one of his family members and the work itself we may assume that Waldmann was born in the last decade of the nineteenth century and died around 1958 in a Russian labor camp. Waldmann does not appear in the art revues of his time and also his family, who diseased in the meanwhile could not give us further information, so that the only way to learn more about this artist is to study his work. (Please find all his work on our homepage! www.karlwaldmannmuseum.com)

To advance our project, we are searching for students that are willed to work on Karl Waldmann within their master or PHD theses, or may use his oeuvre for working out parallels to other artists. (As our headquarters are in Belgium, speaking French would be an advantage)

RESOURCES IN ART HISTORY FOR GRADUATE STUDENTS

A Newsletter of Fellowships and other Opportunities for Art History Graduate Students

"Resources in Art History" (<http://www.efn.org/~acd/resources.html>) lists many CFPs that are open to the entire scholarly community. Most numerous right now are those for the College Art Association and the Renaissance Society of America, and most of those wish for submissions this month. The main page for these is: (<http://www.efn.org/~acd/Symposia.html>). Please note that I have no employment or involvement with these conferences.
