Date: 21 Nov 2009 18:20:22 +0100

Subject: Leonardo Education Forum@ Re:live in Melbourne

The Leonardo Education Forum (LEF) will run a one day forum on the 26th November 2009 prior to the media art history conference Re:live.

The LEF@Re:live will be focused on mapping the terrain: Institutional capacities in media art, science and technology creating an exchange on the burning current issues in education.

The LEF intend to publish policy papers in the course of the next few years. Contributions by participants of LEF conferences in 2008 form the base of our introductory LEF Strategic Summary document available for comment at

<http://mass.nomad.net.au/leonardo-education-forum-strategy-summary-on-media-art-education/>

The Forum will be held at Faculty of VCA and Music, University of Melbourne, 234 St Kilda Road, SOUTHBANK Victoria 3000

We are delighted to report that the Leonardo Education Forum (LEF) continues its successful international education event-initiative and correspondingly we hope you can join us at the public sessions scheduled at the forthcoming Media Art History Conference Re:live 09.

If you are interested in attending the Leonardo Education Forum workshop, which is carrying on from the excellent work done at the International Symposium of Electronic Art in Belfast and Ars Electronica towards the further development of an educational policy paper, please contact us.
