

Nonhuman Artists. Challenging Anthropocentrism (online/Toronto, 18–19 Mar 22)

Online/University of Toronto, Mar 18–19, 2022

Wenyi Qian

The Graduate Union of the Students of Art (GUStA) at the University of Toronto is pleased to present the Ninth Annual Wollesen Memorial Graduate Symposium in cooperation with the Department of Art History.

In art history, notions of artistic creation, identity, and agency are often underpinned by an anthropocentric framework that hampers critical reflection on non-human actors in the making and circulation of images and artefacts. This symposium seeks to explore non-anthropocentric perspectives to artistic practice by confronting the 'animal', 'inorganic', or even 'divine' limits of art-making, and examining the degree to which the works of art both past and present continue to be shaped by agencies and currents of power that resist or exceed human control.

Nonhuman Artists: Challenging Anthropocentrism in Art History will take place over Zoom on March 18 and 19, 2022. All are welcome.
