[1] ICONCLASS Illustrated Edition

[1] ICONCLASS Illustrated Edition

From: Etienne Posthumus, info@iconclass.org

Date: May 19, 2022

We are very happy to announce the latest release of ICONCLASS

The comprehensive classification system for the content of images.

Used globally by many institutions to describe their collections, it has become the de facto multi-lingual standard for iconographic research.

This release also includes a very large corpus of example images (with links to their originating source), and an advanced classification suggestion feature based on cutting-edge AI techniques.
