9th International Conference for Art Libraries: Art information: reflection and the future .

The international network of art libraries centered around the Art Discovery Group Catalogue (<https://artdiscovery.net/>) will come together for the 9th time to hold its bi-annual conference, this year at the Zentralinstitut für Kunstgeschichte (ZI = Central Institute for Art History) in Munich, Germany. The conference is both a meeting of the partner libraries of the Art Discovery Group Catalogue project and an occasion to mark the 10th anniversary of the Future of Art Bibliography Initiative (FAB, [https://www.getty.edu/research/institute/development\\_collaborations/fab/](https://www.getty.edu/research/institute/development_collaborations/fab/)) as an instructive and aspirational lens through which to view many of the major community-based projects that have developed in our domain over the past decade. It will examine projects individually and collectively, in both practical and conceptual terms, and consider topics of collaboration, inclusivity, and diversity of art information. Questions will be possible after each paper.

The conference will take place in the main reading room of the Zentralinstitut für Kunstgeschichte (ZI), Katharina-von-Bora-Str. 10, 80333 München, Germany ([www.zikg.eu](http://www.zikg.eu)).
