

INSERT No.3, 2022: Transversal Boundary Crossings

Julia Wolf, Institute for Cultural Studies in the Arts

Participatory Critique: Transversal Boundary Crossings.

The third issue of "INSERT. Artistic Practices as Cultural Inquiries" is dedicated to artistic, curatorial and mediating practices that conceive partaking (German: Teilhabe) in a relational way. They seek to deconstruct inclusions and exclusions on a level of immanence to decidedly situate themselves in the given powerful, sociocultural, political, economic and media-technological conditions and have a transforming effect on them.
