

## The Lessons of Rome (Lyon, 24 Mar 23)

Lyon Museum of Fine Arts, Mar 24, 2023

Deadline: Feb 24, 2023

Benjamin Chavardès

The Lessons of Rome (6th edition).

The Lessons of Rome aim to propose a space for reflection for anyone who grasps Italy as an architectural, urban, and landscape research laboratory. Defining Italy as a laboratory involves analyzing contexts of urban policies but also as design experiences, theories, practices, legacies, mutations, and prospects. It means building knowledge and culture, learning and developing tools to conceive the present and to enrich contemporary practices. The Lessons of Rome provide the opportunity to be kept up to date on current and upcoming research, to share existing and generate new knowledge and dialogues with Italy. Professionals, students, Phd candidates, researchers, and people from various academic disciplines, schools, and nationalities are welcome.

Please submit your proposal before February 24, 2023, to [rome@lyon.archi.fr](mailto:rome@lyon.archi.fr) and [benjamin.chavardes@lyon.archi.fr](mailto:benjamin.chavardes@lyon.archi.fr)

Please include a title, an abstract (about 200 words), and a short biography. The official language of the day is French, but talks can be submitted in English.✉

The Lessons of Rome is a study day organized in partnership between the Ecole nationale supérieure d'architecture de Lyon, the LAURE, the Institut Culturel Italien of Lyon, and the Lyon Museum of Fine Arts.
