

Harry Bertoia Catalogue Raisonné

Bridget Gilman

The Harry Bertoia Foundation is pleased to announce the publication of the Harry Bertoia Catalogue Raisonné. The online catalogue, accessible beginning June 1, 2023, serves as the first definitive repository of Bertoia's vast oeuvre, including his design, sculpture, Sonambient, and two-dimensional work. The result of years of research, the catalogue provides in-depth documentation of individual objects and their provenance, bibliographic references, and exhibition history. The catalogue website also features a comprehensive timeline of Bertoia's large-scale commissions, detailed explanations of his artistic development, and an extensive glossary of his materials and techniques.

The Harry Bertoia Catalogue Raisonné functions as a "living" document, and is updated regularly as new artworks and archival materials are uncovered. The Harry Bertoia Foundation encourages anyone with information related to Bertoia or his work to contact us at catalogue@harrybertoi.org.

The Harry Bertoia Catalogue Raisonné is available to all, free of charge. To access the website, please visit the following link and register with your email address: <http://catalogue.harrybertoi.org/>
