

Symposium in Honour of Ebba Koch (Vienna, 15 Mar 24)

Vienna, Mar 15, 2024

Simone Wille, University of Innsbruck

We are pleased to announce the Symposium
"A Transdisciplinary Approach to Mughal Studies:
A symposium in honour of Professor Ebba Koch's scholarly works".

On the occasion of Professor Ebba Koch's 80th birthday, a symposium will take place at the Academy of Sciences in Vienna. Based on the scientific achievements of the internationally renowned art historian on the Mughal Empire and its exchange with other Empires of its time, new interdisciplinary research approaches will be discussed.

The focus is on studies of Indo-Islamic culture, architecture and garden art, of the relationships between Mughal India and Europe as well as of the Millionenzimmer of Schönbrunn Palace, which take up and critically examine recent developments, particularly in relation to transcultural and global research. For this purpose, international experts from different disciplines are invited: art history, architectural history, global history, Iranian studies, linguistics, and cultural anthropology.

The symposium will be accompanied by an exhibition of Ebba Koch's archive material (architectural drawings and photographs), some of which have not yet been published. The aim of the symposium is – apart from honoring Ebba Koch's merits – to revitalize Vienna as a scientific center for research on the Mughal Empire and to strengthen the interdisciplinary collaboration between leading experts of the field.

Friday, 15 March 2024, 9.30 am – 6.00 pm

Venue: Institute of Iranian Studies, Austrian Academy of Sciences, Postsparkasse,
Georg-Coch-Platz 2, 1010 Vienna, seminar rooms 1 and 2, 3rd floor
