

request for guidance restructuring curriculum from 3/3 to 2/3

Lenore Metrick-Chen, Drake University

Dear Colleagues -

My University - Drake University - is considering changing the course load for faculty from 3 courses each semester to a 2/3: two course one semester and three the next. The majority of students in our Art & Design department major in graphic design, and we have many in studio and several majors in my area - Art History. We also have a great many students who minor in these three areas.

We need to revamp the student curriculum and course requirements to align with this and I am looking for precedents. If any of you are teaching a 2/3 course load in an Art or Design or Art History department, could you please share your student requirements for degrees, major and minor?

I appreciate your assistance in helping us achieve this!

You can contact me through the webserve or directly at:
