

Ochs Scholarship 2026

Application deadline: Feb 1, 2026

Roisin Astell

The British Archaeological Association welcome applications for the 2026 Ochs scholarship.

The Ochs Scholarship is awarded for research projects and is primarily intended to provide late stage funding to post-graduate students striving to write up theses. To be eligible, the thesis must be capable of completion within the Scholarship period, and therefore, applications where a substantial amount of fieldwork remains to be done are unlikely to succeed.

Grants are also available for research projects conducted either privately or under the umbrella of a larger organisation, such as a local history or archaeology society.

For more information and to apply, go to our website:
