Followed by a drinks reception

We're convening bold voices from across the art world to ask the questions that matter:

- Who gets a catalogue raisonné – and who doesn't?
- Who gets funded – and who gets left behind?
- What new models can better support marginalized artists?
- And how can AI open new possibilities for visibility and research?

Hosted by Mishcon de Reya LLP with additional support from Christie's and Cogapp.

Tickets for In-Person and online participation are necessary.
