

Early Netherlandish Drawings Symposium (London, 26 Jun 26)

London, Warburg Institute, Jun 26, 2026

Charlotte Wytéma

This international symposium is organised in conjunction with the exhibition 'Early Netherlandish drawings' at the British Museum. It will take place on Friday 26 June at the Warburg Institute in London. The symposium will bring together scholars and curators from the UK, Europe and the USA, who will share new research on drawings from the Low Countries between 1400 and 1600.

The programme explores questions surrounding the themes explored in the exhibition, addressing the function and materials of drawings as well as new subjects and drawing practices. Papers will highlight the role of drawing in the workshop, preparatory drawings for painted glass roundels and prints, the function of model books and sketchbooks, and the emerging practice of drawing outdoors and from live models. Together, they will illuminate key facets of the transformational development of Netherlandish drawing from 1400 to 1600.
