World Art Histories in Dialogue – Distinguished WAI Lecture Series 2026/27.

The World Art History Institute (WAI) at Shanghai International Studies University (SISU) presents its second Distinguished Lecture Series to celebrate its 6th anniversary. Established as a leading research institution closely affiliated with the Comité International d'Histoire de l'Art (CIHA), the WAI's primary mission is to promote World Art Studies in China and foster collaboration within the global network of art history institutions, museums, archives, and libraries.

The annual program 2026–27 will feature twelve world-leading scholars who have made significant contributions to various fields intersecting art history, archaeology, anthropology, ecology, provenance research, and science. These contributions will be presented through a variety of academic activities, including public lectures, roundtable discussions, collaborative workshops, book launch events, translation initiatives, and publication projects. The lecture series will take place in person at WAI Shanghai in collaboration with four partner universities across Shanghai, Beijing, Hangzhou, and Xi'an. Please refer below for details of the annual program.

On 30 May 2026, WAI will inaugurate the Lecture Series "World Art Histories in Dialogue" by kicking off with Prof. Dr. Peter J. Schneemann's (Universität Bern) lecture titled *The Ecological Imperatives: Methodological Challenges to a Paradigmatic Shift in Art Historical Research* (in collaboration with the Shanghai Library).

Peter J. Schneemann, Universität Bern, 30 May 2026

*The Ecological Imperatives. Methodological Challenges to a Paradigmatic Shift in Art Historical Research*
