How is war recorded in visual media? And what are we talking about when we talk about war? What, exactly, constitutes war and what qualifies as a visual representation of it? Human conflict and the visual arts have perhaps never remained completely separate from each other. Given war’s omnipresence throughout human history and its interconnectedness with politics and propaganda, the content of its imagery projects certain facets of warfare while concealing others. What is revealed through agency and to what extent is it permitted to prevail? Whose viewpoint is represented? How politicized or personal is an image of war? How does imagery produced by war participants compare with officially sanctioned works? How is such imagery digested and understood in our own age?

This conference will bring together multiple perspectives on representations of war in visual culture. It is intended that the conference will lead to the formation of a multidisciplinary, international scholarly community with its own calendar of events and digital presence. The publication of conference papers is planned.

Panels topics will include: the classical world, print culture of WWI and WWII, home front, women and war, memory, colonial encounters, commemoration and the built environment, bodies, senses and spaces of war; propaganda; art during the rise of fascism, the soldier’s body, resistance, battlefield imagery in Renaissance Italy, artist as witness (including official war artists), photography, film, identity, internment, soldier-artists, responses to contemporary conflicts, trauma, perspectives of curators and archivists.

1. WALKING TOUR AND VISIT TO THE HERITAGE CENTRE, COBH
2. GUIDED TOUR AND LUNCH AT FOTA HOUSE, LITTLE ISLAND
3. GUIDED VISIT TO SPIKE ISLAND MILITARY FORTRESS AND PRISON

Tour details: You will be collected from the main campus on Sunday morning at 9.30am and make a 30 minute coach trip to historic Cobh, the last port of call for HMS Titanic. There, we will commence with the Titanic Trail, which has been filmed by 20th Century Fox, National Geographic and featured in numerous other travel documentaries. Cork historian Dr Michael Martin (founder and director of the Titanic Trail) and his team of specially trained guides, will direct our visit. After the hour-long walking tour, we will visit the Cobh Heritage Centre to explore its colourful maritime history.

We will then take a short coach trip to Fota House, a beautifully restored Neo-Classical mansion for a guided visit of the house and lunch. Good photo opportunities inside and out. Arboretum located next to the house.
We will then return to Cobh to take the ferry across the harbour to Spike Island, home to a classic star-shaped military fortress which in its time witnessed the horror of the Great Famine (1848-51) and held internees during the War of Independence (1919-21). The visit includes access to a restored 6 inch coastal artillery weapon. The tour of the island is based on Dr Martin’s research for his book, Spike Island: Saints, Felons and Famine (Dublin, 2007).

About our guide: Dr Michael Martin served in the Irish Navy for 23 years (1975-98). In 1987, at the age of 29, he became the youngest ever person in Ireland to be promoted into the rank of Warrant Officer. His service included a voluntary peacekeeping tour of duty as a member of the United Nations Interim Force in Lebanon. On retirement, Michael set up and still runs a number of histori-
cal tours of Cobh. He received the Cobh Mayor’s award in 2005 for his work for the town and was made an honorary citizen of Baltimore USA by the Mayor there in 2003. In 2004 he went back to full time education in University College Cork and University of California, Berkeley, completing his PhD on Irish Civil Military Relations in 2010. Michael regularly lectures on his work and has been a guest speaker on numerous television and radio programmes, both in Ireland and abroad.
