Invitation to the 3rd Conference of Emerging professionals in Heritage Science.

The 3rd International Conference of Emerging professionals in Heritage Science is organized under the auspices of Emerging Professionals in Heritage Science HERI SCI and J2CSP - French Association for Young Researchers in Heritage Sciences in partnership with GreenHer Center of Excellence, MATRES project, AID HCH project, Fondation des Sciences du Patrimoine and Slovenian node of European Research Infrastructure for Heritage Science E-RIHS.
Join us for a day of inspiring presentations and explore with us the interdisciplinary world of heritage science!

What to expect:
• A one-day event where young professionals will present their projects in the field of heritage science
• A round-table discussion with emerging professionals in heritage science

- Participation is free, but registration is required!

The conference brings together students from bachelor's to PhD level, postdoctoral researchers, and other early-career professionals engaged in interdisciplinary research on cultural heritage. It provides a platform to present projects, exchange knowledge, and connect across the diverse disciplines that make up heritage science. We especially encourage emerging researchers and professionals working with or interested in cultural heritage to share their work and ideas.
A dedicated round-table discussion will focus on communities in heritage science and their collaboration, exploring how different networks, disciplines, and emerging professionals can connect, exchange expertise, and strengthen interdisciplinary cooperation.
