IAWA 2027 Milka Bliznakov Research Prize

Nov 13, 2026–Jan 15, 2027
Application deadline: Jan 15, 2027

Elizabeth Keslacy, Virginia Tech

The IAWA Center invites architects, scholars, professionals, students, and researchers to honor IAWA founder Professor Milka T. Bliznakov through research on women in architecture and related design fields. This research, in concert with the preservation efforts of the IAWA, is intended to help fill the current void in historical knowledge about women's professional achievements. The prize is designed to facilitate in-person research in the IAWA archive and produce scholarship related to the work of women who shaped the designed environment, thus preserving for posterity a record of their achievements.

The deadline for submission is January 15, 2027.

Please see the website for more information about the prize and submission requirements.
